

# SCHEDULE A

## Pre-Existing Intellectual Property of Jasraj Singh Johal

---

Attached to and forming part of the Confidentiality, Non-Circumvention, IP Assignment & Restrictive Covenants Agreement between Genovation AI Inc. / Tech Genius Burlington Inc. ("Company") and Jasraj Singh Johal ("Recipient").

Pursuant to Section 8.5 of the Agreement, Recipient identifies the following tools, code, templates, and assets as pre-existing intellectual property owned by Recipient prior to the commencement of this engagement. These items are expressly excluded from the IP assignment provisions of Section 8:

### Pre-Existing Assets

---

#### 1. Python Utility Scripts and Automation Helpers

General-purpose Python scripts, helper modules, data parsers, and automation utilities authored independently prior to this engagement.

#### 2. LLM/AI Prompt Templates and Agent Instruction Patterns

Prompt engineering frameworks, system prompt structures, and agent instruction templates developed independently through personal experimentation and coursework prior to this engagement.

#### 3. AI Agent Workflow Designs and Orchestration Architectures

Multi-step AI agent pipeline designs, orchestration patterns, and workflow architectures developed independently prior to this engagement.

#### 4. RPA Workflow Patterns and Automation Logic

General-purpose robotic process automation designs, trigger-condition-action frameworks, and process automation patterns developed independently prior to this engagement.

#### 5. Reusable API Integration Boilerplate

Standard API wrapper code, authentication handlers, retry logic, and response parser templates for connecting to third-party REST/GraphQL services, developed prior to this engagement.

#### 6. Personal GitHub Repository Contents

All code, scripts, and assets authored and committed to Recipient's personal GitHub repositories prior to the engagement start date, as evidenced by repository commit timestamps.

#### 7. Open-Source Libraries and Frameworks

Any open-source software, libraries, or frameworks (e.g. pip packages, npm modules) incorporated into deliverables remain governed by their respective open-source licenses and are not subject to assignment by either party.

---

### License Grant

Where any pre-existing IP listed above is embedded in Work Product delivered to Company, Recipient grants Company a perpetual, worldwide, royalty-free, non-exclusive license to use such pre-existing IP solely as part of

that Work Product, consistent with Section 8.5 of the Agreement. Ownership of the underlying pre-existing IP remains exclusively with Recipient.
