

**ENGINEERING COURSE CONFLICT FORM**

Name: Jasraj Singh Johal Program & Level: Computer Science 2nd Level  
 Student #: 400434346 McMaster E-mail: johalj11 @mcmaster.ca  
 Phone: 9055374747 Term: Winter 2024

**THIS SECTION IS TO BE COMPLETED BY THE STUDENT.**

Request to enroll in the following two courses that have timetable conflicts:

Course 1: COMPSCI 2AC3 Lecture Section: C01 Lab Section: \_\_\_\_\_ Tutorial Section: T03

- I am already enrolled in this course
- I meet the prerequisites for this course

Course 2: HTHSCI1M03 Lecture Section: C01 Lab Section: L01 Tutorial Section: \_\_\_\_\_

- I am already enrolled in this course
- I meet the prerequisites for this course

Reason why you are requesting to register in two courses with conflicting schedules:

I am eager to enroll in both HTHSCI 1M03 Foundations of Data Science and COMPSCI 2AC3 Automata and Computability, notwithstanding the scheduling conflict. My interest in HTHSCI 1M03 stems from its foundational aspects of data science, which I believe will complement and enrich my Computer Science studies.

I am fully committed to effectively managing the workload, remaining current with lectures, and maintaining high grades in both courses. Recognizing the scheduling challenge, I am open to exploring potential solutions, such as attending additional sessions or completing alternative assignments, to resolve the conflict and ensure successful participation in both classes.

I accept responsibility for the academic risks involved in registering in two courses with conflicting components.
